## MINOT-SLEEPER LIBRARY—REPORT OF TRUSTEES

---

An increased circulation of books is perhaps the outstanding feature of the year at Minot-Sleeper library. The activities have gone on much as usual.

Miss Mary A. Rogers, the librarian, has remained faithfully at her post, doing her utmost to accommodate all patrons whom she serves.

Her annual report shows 14,500 adult fiction books loaned; 2,229 adult non-fiction; 4,393 junior fiction; and 1,293 junior non-fiction; a total of 22,485 books loaned through the year. This makes an increase in circulation of 1,495 books over last year, with a generous patronage from summer people. There is an increasing tendency to use the library as a modified community center. The librarian received \$40 for fines. Books added during the year numbered 270.

The librarian attended a library neighborhood meeting in Ashland and was a part-time student at the summer library school at New Hampton.

The local library cooperates with the state library for special books, which, being secured through the local library, may be kept for thirty days instead of fourteen.

A shelf of arts and crafts books has proved of interest, and every possible encouragement is given to the church reading list and to supplement the needs of the local schools. One traveling library from the State Library Commission for rural schools has been used. In this library are approximately 7,600 books.

The reading room, with its excellent supply of good magazines, made possible by the Minnie Maria Day-Jackman Fund, is, as formerly, one of the most appreciated divisions of the library and brings to our readers

each month copies of such magazines as Atlantic, American, American Boy, American Girl, American Forest, American Home, Among the Deep Sea Fishers, Better Homes & Gardens, Country Gentleman, Current History, Child Life, Clubwoman, Christian Century, Cosmopolitan, Dumb Animals, D. A. R., Embroideress, Forum, Field & Stream, Flower Grower, Good Housekeeping, Harpers, Hunting & Fishing, Ladies' Home Journal, Literary Digest, National Geographic, Nature, Home Arts Needlecraft, Parents, Popular Science, Popular Mechanics, Readers' Digest, Review of Reviews, Scribners, St. Nicholas, School Art, Scientific American, Woman's World, Radio and Modern Mechanics and Inventions, Christian Herald, Pictorial Review, Nature, Boys' Life.

Respectfully submitted,

## SUPERINTENDENT'S REPORT

I submit, herewith, my report as superintendent of schools.

In this report you will find a statistical table, the treasurer's report, and a report of revenue and expenditures for the year 1935-36, statistics and tables for the current year, and proposed expenditures for the year 1937-38.

Schools opened September 8, with an enrollment of 210 pupils in the elementary schools and 149 pupils in the high school. Thirteen of the elementary pupils are in the Dölloff school.

The same teachers returned to their duties, thus causing no break in this particular part of the school machinery. Four of our teachers spent part of the summer in travel, making an automobile trip to the Western Coast. This rich experience should be a great help to them in the work they have to do as teachers.

Once again it has been necessary to divide the work in eight grades between seven teachers. Lack of a class room makes it necessary to split a grade, giving parts of the same grade to two different teachers. Last year the third grade was divided, and this year the division is made in the fifth grade.

This practice of dividing a grade will have to be continued unless a room is provided for the entire grade. I hope this practice can be discontinued in the near future.

The enrollment of the high school has reached the 149 mark. This is the highest in the history of the school. The nearest approach to this figure was in 1932 when 142 were registered.

### **Non-resident Pupils**

Bristol serves as an educational center as well as a trading center. Fifty-eight pupils from nearby towns are receiving their secondary education in the high school, and ten non-resident pupils are scattered over the eight grades in the elementary schools.

### **Repairs and Equipment**

Because of the increase in the high school tuition rate charged it has been possible to do some very necessary repairing and to get some equipment for which no

money was raised at the last school meeting. Gas burners and gas were installed in the laboratory. Black shades for two rooms were purchased. These shades have added greatly to the efficiency of the moving picture machine. An incinerator was built to burn the waste paper that accumulates from day to day. A portable typewriter was purchased for the office.

### Recommended Repairs

The furnace in the wooden building has outlived its usefulness and a new one undoubtedly should be purchased to replace it.

An automatic flushing system should replace the one now in use in the boys' basement.

The tubular boiler is not in a condition to be used and the space this takes up in the boiler room is needed. I suggest that it be removed.

Elsewhere in this report will be found three tables: enrollment by grades of the elementary school pupils for the last ten years, enrollment of high school pupils by grades since 1922, and another table showing the number of pupils taking the studies offered in the high school for the current year.

The double set of figures in the years 1927 to 1930 is the enrollment for the Town District and Union District. In 1931 the two districts were merged into one and the figures from that point show the number of pupils found in the grades for the town as a whole.

Achievement tests are given from time to time in order to keep the work up to grade. A constant effort is made to fit the work of the school to the pupil. This results in a great deal of work with the pupil as an individual.

The teachers are to be commended for their zeal in attacking and carrying the work and solving the problems they meet each day.

The night session of the high school was continued. This year the seventh and eighth grades were asked to run a two hour session in the evening.

The school exhibit was a great success and will undoubtedly become a yearly event.

I should like to thank the members of the board for the time they give up to school matters and the interest they take in helping to keep the schools up to date.
